

Insider Expertise and Proprietary Technology Deliver Real Results

Transportation Insight's parcel and supply chain engineers, advanced analytics experts and innovative product managers provide our clients with the most extensive parcel shipping expertise available in the global marketplace. Our team lives and breathes integrated multi-modal supply chain solutions including parcel, less-than-truckload and truckload shipping every day. With end-to-end supply chain services, we offer a robust parcel platform including Advanced Analytics, Engineering and Optimization and Audit (Invoice, Service and Compliance). Managing volumes of shipping data, we help our clients analyze trends, evaluate operational efficiency and alignment, enhance visibility, reduce supply chain risk and create enterprise value. Meet our senior parcel subject matter experts and long-term industry thought leaders.

TODD BENGE

Vice President, Parcel Operations

Todd Bengé brings a unique perspective to Transportation Insight B2B and B2C retail clients thanks to his 30 years of leadership experience in developing parcel shipping programs. Bengé is nationally

recognized for his expertise in network design, innovative technology and data analysis. He has an MBA from Shorter College, a master's certificate in project management from George Washington University and a Bachelor of Science degree in industrial engineering from The University of Toledo.

CHARLES MOORE

Vice President, Parcel Solutions

Charles Moore has more than 25 years of experience in the supply chain marketplace and is a pioneer in Enterprise Logistics solutions across all modes of transportation. Moore has vast experience

in parcel logistics management and is dedicated to helping shippers improve the customer delivery experience. He graduated from the Louisiana State University in Shreveport with a Bachelor of Science degree in Marketing and Management.

JEFF EISCHEN

Senior Partner, Parcel Solutions

Jeff Eischen engineers parcel programs for some of the largest retailers in the U.S. Prior to joining Transportation Insight, Eischen had a successful 20-year transportation carrier career featuring

key industrial engineering, operations, marketing and corporate strategic pricing roles. He holds a Bachelor of Science degree in electrical engineering and an MBA from the University of Toledo.

TONI CAPUTO

Director, Audit Recovery

Toni Caputo is critical to parcel shipping risk mitigation as she leads our team of parcel carrier auditors, late/lost/damage claims management specialists and data analysts. Caputo is also the key contributor for Transportation Insight's SSAE16 Type II certification.

CHRIS EDMUNDS

Director, Engineering

Chris Edmunds has more than 21 years of software development and data analytics experience to keep Transportation Insight technology ahead of the curve. Edmunds

was a founder or key player in several technology startups including e-commerce and parcel shipping companies. His electrical engineering degree is from Brigham Young University.

CORY GRIFFITHS

Product Manager

Our resident analytics expert, Cory Griffiths, ensures our clients get the data they need with actionable insight.

SHAWN EMERY

Associate Consultant, Small Parcel Operations

Shawn Emery has spent nearly a decade engaged in deep analysis of small package, less-than-truckload (LTL) and truckload (TL) transportation modes.

Emery's multi-modal knowledge of the transportation landscape makes him an essential piece of Transportation Insight's customer engagements and optimization projects. He is a graduate of the Georgia Tech Industrial Engineering Program.
